## COMMUNITY WHITE PAPER

[Meta-pokemon.xyz](https://meta-pokemon.xyz)

# ORIGINS

## Current State of the World

---

As the world takes on a new shape and humans change how they interact with the world around them, the Pokémon are unwilling to ride this burning train into the thick of it! The Pokémon boycotted the renewed order. And they call on the world to return to love and harmony, even if only in confrontation. Confrontation is not always belligerently destructive. It is often the only way to remain free, to stand up for love. Be in the same universe as the Pokémon! We are here for the greater good!

*People are meant to be free and happy!  
Pokémon will remind everyone of that!*

## Community

---

A group of like-minded people achieved the most fabulous world-changing events in human history. Whatever is created will never have any meaning without the strength of a community that shares the Pokémon philosophy. Improving and empowering the community will always be central to our work.

## Transparency

---

A group of like-minded people achieved the most fabulous world-changing events in human history. Whatever is created will never have any meaning without the strength of a community that shares the Pokémon philosophy. Improving and empowering the community will always be central to our work.

## Fairness

---

Everyone deserves a fair share in life, regardless of creed, color, or orientation. The social and financial well-being of all community members is what we strive for. It's what we fight for. Meta Pokemon, through its example, empowers people to reclaim what is theirs.

# ECOSYSTEM

## Pokemon Token.

Much fantastic info is coming up that will give you lots of pampers. At the end of 2022, we will list our \$Pokemon token on PancakeSWAP. Our blogger partners and Influencers will pick up this event, and by the following listing on CEX, we expect the first tokens for our community of early holders.

## NFT Collection.

In early 2023, we'll be minting a unique NFT collection, whose owners will be able to get privileges and a 3d character for the game and the meta universe.

## P2E game.

Battle Arena is almost ready to launch. You'll be able to power up your Pokémon and create an invincible love warrior!

## Social impact

Our community will independently decide where the proceeds from the sale of our collections and lands will go, but in any case, it will be solely for charity!

## The Meta Pokemon universe.

Elements of the new vision of social interaction - finding adventures and like-minded people in web3 space will be available for Pokémon universe fans in 2023!

MeTa  
PoKeMoN

*We're creating more than just an ecosystem.  
We are building a social world.  
A world where everyone matters.*

*This is just a tiny part of our plans, which we  
will definitely realize together with you!*

# About \$Pokemon Token

- Max supply 7,777,777,777
